

Professional FinTech Color System

Premium • Trustworthy • Modern • Financially Clear

Color Preview	Color Code	Detailed Instruction / Usage
Deep Navy	#0B1F33	Primary brand color. Use for headers, navigation, important headings, primary icons and high-priority financial information.
Royal Blue	#1769FF	Primary action color. Use for main CTA buttons, Add Money, Transfer, Continue, Save, active tabs and links.
Emerald Green	#12B76A	Positive financial color. Use for income, earnings, profit, deposits and successful transactions.
Professional Red	#D92D20	Negative financial color. Use for expenses, withdrawals, losses, failed transactions and destructive actions.
Amber	#F79009	Warning color. Use for pending transactions, budget alerts, reminders and attention-required states.
App Background	#F7F9FC	Main app background. Use as the default screen background for a clean, premium and comfortable UI.
Surface White	#FFFFFF	Cards and components. Use for balance cards, transaction cards, modals, bottom sheets and input containers.
Primary Text	#101828	Main typography. Use for balances, page titles, transaction names and important numbers.
Secondary Text	#667085	Supporting typography. Use for dates, categories, descriptions and secondary information.
Muted Text	#98A2B3	Low-priority typography. Use for placeholders, disabled labels and tertiary metadata.
Border	#E4E7EC	Subtle component borders for inputs, cards and controls. Keep borders understated.
Divider	#F0F2F5	Section separation for transaction lists, settings and card content.
Light Blue	#E8F0FF	Soft blue background for selected states, informational cards and subtle action highlights.
Light Green	#ECFDF3	Soft positive background for income badges and successful transaction states.
Light Red	#FEF3F2	Soft negative background for expense badges and error states.
Light Amber	#FFFAEB	Soft warning background for pending states, budget warnings and alerts.
