

Professional FinTech

Premium Theme Color System

5 complete premium themes • detailed color tokens • customized dark-mode companion system

01 — Midnight Sapphire

Same detailed token structure as the supplied reference: brand, action, positive, negative, warning, surfaces, typography, borders/dividers and semantic soft states.

					
Brand #0B1F33	Action #2563EB	Success #10B981	Error #D92D20	Warning #F79009	Background #F7F9FC

LIGHT MODE — Complete Color System

Color Preview	Color / Token	Color Code	Detailed Instruction / Usage
	Brand / Primary	#0B1F33	Primary brand color. Use for headers, navigation, important headings, primary icons and high-priority financial information.
	Primary Action	#2563EB	Use for main CTA buttons, Add Money, Transfer, Continue, Save, active tabs and links.
	Positive	#10B981	Use for income, earnings, profit, deposits and successful transactions.
	Negative	#D92D20	Use for expenses, withdrawals, losses, failed transactions and destructive actions.
	Warning	#F79009	Use for pending transactions, budget alerts, reminders and attention-required states.
	App Background	#F7F9FC	Default screen background for a clean, premium and comfortable UI.
	Surface	#FFFFFF	Cards and components: balance cards, transaction cards, modals, bottom sheets and input containers.
	Primary Text	#101828	Balances, page titles, transaction names and important numbers.
	Secondary Text	#667085	Dates, categories, descriptions and secondary information.
	Muted Text	#98A2B3	Placeholders, disabled labels and tertiary metadata.
	Border	#E4E7EC	Subtle borders for inputs, cards and controls. Keep borders understated.
	Divider	#F0F2F5	Section separation for transaction lists, settings and card content.
	Light Action	#E8F0FF	Soft background for selected states, informational cards and subtle action highlights.
	Light Positive	#ECFDF3	Soft background for income badges and successful transaction states.
	Light Negative	#FEF3F2	Soft background for expense badges and error states.

Color Preview	Color / Token	Color Code	Detailed Instruction / Usage
	Light Warning	#FFFAEB	Soft background for pending states, budget warnings and alerts.

DARK MODE — Customized Companion Palette

Dark Token	HEX	Detailed Instruction / Usage
Dark Background	#0B1220	Main app background; use as the deepest page-level background.
Dark Surface	#111827	Cards, transaction containers, modals and bottom sheets.
Elevated Surface	#172033	Raised cards, focused menus and high-priority containers.
Primary Text	#F9FAFB	Balances, page titles, transaction names and important numbers.
Secondary Text	#CBD5E1	Dates, categories, descriptions and secondary information.
Muted Text	#94A3B8	Placeholders, disabled labels and tertiary metadata.
Border	#263244	Subtle component boundaries; avoid high-contrast outlines.
Divider	#1F2937	Section separation for lists, settings and card content.
Theme Action	#2563EB	Theme-specific CTA, active tabs and links; keep it vivid but controlled.
Theme Success	#10B981	Income, deposits, profit and success states.
Theme Error	#D92D20	Expenses, withdrawals, losses and destructive/error states.
Theme Warning	#F79009	Pending transactions, budget alerts and reminders.

Implementation rule: Keep green = positive, red = negative and amber = warning across every screen. Use the background → surface → elevated-surface hierarchy to create depth without heavy shadows. Use primary text only for the strongest information hierarchy.

02 — Royal Indigo

Same detailed token structure as the supplied reference: brand, action, positive, negative, warning, surfaces, typography, borders/dividers and semantic soft states.

					
Brand #1E1B4B	Action #6366F1	Success #14B8A6	Error #E11D48	Warning #F59E0B	Background #F8F7FF
